**Clinical Anatomy and Operative
Procedures as Applied to Head,
Neck and Limbs**

Feedback - October 2015

Clinical Anatomy and Operative Procedures as Applied to Head, Neck and Limbs

Taught by surgeons, this highly interactive event featured focus-group workshops and individual demonstrations complemented by an overview of essential theoretical information on surgical anatomy. Delegates were taught the anatomy encountered in common procedures, the placement of incisions and the essential principles of surgery.

The sessions also included the anatomical basis in the assessment and management of patients that had been involved in a variety of major and minor trauma situations. Some examples of the topics covered include: Head and facial injuries, stab / gunshot wounds to the neck, central line insertion, emergency cricothyroidotomy, burns, nerve injuries (including brachial plexus), tendon injuries, fractures of long bones and compartment syndrome.

The workshops will use imaginative artwork in identifying important surface anatomy landmarks and the underlying structures on live human models.

Operative anatomy pertinent to the following specialties will be covered:

- Ear, Nose and Throat Surgery
- Head and Neck Surgery
- Maxillofacial Surgery
- Trauma and Orthopaedics
- Plastic Surgery
- Hand Surgery

Course Information

Course date:	31st October 2015
Venue:	Sir Alexander Fleming Building, South Kensington Campus, Imperial College, London
Attendance:	14 Delegates
Aimed at:	Medical Students Foundation Year Doctors
Faculty:	Surgeons
Course fee:	Student £8.50 Doctors £13.50

Course Programme

1345 - 1400	Registration
1400 - 1415	Welcome and Introduction
1415 - 1500	Session 1: <i>Orthopaedic Surgery</i> <ul style="list-style-type: none">• Lower Limb• Upper Limb• Spine
1500 - 1530	Session 2: <i>Trauma</i> <ul style="list-style-type: none">• Lower Limb including Fracture Neck of Femur• Upper Limb• Pelvis• Head Injuries
1530 - 1545	Break for refreshments
1545 - 1645	Session 3: <i>Plastic Surgery</i> <i>Hand Surgery</i> <i>Burns</i>
1645 - 1730	Session 4: <i>Ear, Nose and Throat Surgery</i> <i>Head and Neck Surgery</i> <i>Maxillofacial Surgery</i>
1730 - 1745	Summary, Feedback and End of Course

Overall Teaching Feedback

How useful were the small group demonstrations and discussions?

■ Very useful ■ Useful ■ Neutral ■ Limited Usefulness ■ Useless

How would you rate the general academic standard of the tutors?

■ Excellent ■ Good ■ Neutral ■ Fair ■ Poor

How would you rate the general friendliness of the faculty?

■ Very friendly ■ Friendly ■ Neutral ■ Indifferent ■ Unfriendly

Did the event achieve your objectives?

■ Most certainly ■ Certainly ■ Neutral ■ Probably not ■ Certainly Not

Did you gain more surgical anatomy knowledge and become more confident in surface anatomy?

■ Most certainly ■ Certainly ■ Neutral ■ Probably not ■ Certainly Not

Brachial Plexus

■ Excellent ■ Good ■ Neutral ■ Fair ■ Poor

Overall Teaching Feedback

Upper Limb nerve injuries

■ Excellent ■ Good ■ Neutral ■ Fair ■ Poor

Lumbar plexus

■ Excellent ■ Good ■ Neutral ■ Fair ■ Poor

Lower Limb nerve injuries

■ Excellent ■ Good ■ Neutral ■ Fair ■ Poor

Facial fractures

■ Excellent ■ Good ■ Neutral ■ Fair ■ Poor

Head injuries

■ Excellent ■ Good ■ Neutral ■ Fair ■ Poor

Would you recommend this course to a friend?

■ Most certainly ■ Certainly ■ Probably
■ Maybe ■ Will not recommend

Overall Teaching Feedback

Do you think that this course provided good value for money?

■ Most certainly ■ Certainly ■ Probably ■ Maybe ■ Not worth

Individual Comments

Well worth the journey from Nottingham to attend. Really helpful to be taught clinical anatomy for surgery by surgeons.

TJ

King's Mill Hospital, Sutton in Ashfield, UK

High standard of faculty. Relevant for exam preparation. Content of the course was good.

YR

St George's, University of London, UK

The course was extremely informative and a good revision of pertinent clinical & surface anatomy.

NK

St George's, University of London, UK

The course was amazing. Probably the best (if not the best) anatomy course providing delegates with in-depth clinical knowledge on anatomy. It was organised superbly and was set in a way that made it easy to ask specific questions which was great.

DP

University College London, UK

Course was very good - hadn't done anatomy in over 4 years and it was a very good refresher, very well explained and very well organised.

NK

University College London, UK

Everything was structured well, they managed to fit in so much teaching in such a short amount of time which was really impressive and we all learnt a lot from both sessions, the clinical educators were also very helpful.

FR

University of Leicester, UK

As a first year medical student, I saw the course very much as a means to gain a better understanding of clinical anatomy/an introduction to surface anatomy. The course was well presented and I think to have gained more from the course would have required me to have a greater knowledge of anatomy before I attended the course. I'm glad I attended the course as I enjoyed it and found it useful.

VJ

Barts and the London School of Medicine & Dentistry, UK

The contents of the course was good and relevant. The presentations were clear. Will be recommending it to others preparing for the exam.

RA

Imperial College School of Medicine, UK

Individual Comments

The teaching on Upper Limbs in general was quite good.

AT

Imperial College School of Medicine, UK

Very pleased to have attended the course. I thought it was an intelligent use of resources and time to get through a lot of anatomy at a pace that never felt rushed. Congratulations.

FM

Wexham Park Hospital, Slough, UK

Good tutors. Relevant topics and definitely learnt new things so the session was useful overall.

Imperial College School of Medicine, UK

DOCTORS ACADEMY

BETTER EDUCATION. BETTER HEALTH.

Doctors Academy is an UK-based International Non-Profit Organisation comprising of doctors, dentists and scientists that undertakes a diverse range of educational activities globally. The aim of the Academy is to disseminate information and exchange medical knowledge between professionals from diverse backgrounds working in a variety of healthcare settings. This is achieved by the provision of a number of attendance courses, publishing house, online resources and international events/ competitions.

Courses (a selection):

Undergraduate:

- Final Year Medicine and Surgical Revision Courses
- Training the Clinical Anatomy Trainer
- Clinical Anatomy as Applied to Trauma and Emergency Medicine
- Surgical Anatomy of Important Operative Procedures
- Future Surgeons: Key Skills (RCSEd delivered)
- Structured Introduction to Surgical Skills

Postgraduate:

- MRCS Part A
- MRCEM Part A
- MRCS Part B OSCE
- DOHNS: Intensive Revision & OSCE
- Intercollegiate Basic Surgical Skills (RCSEd delivered)
- MRCP PACES Part 2
- FRCS (General Surgery) Exit Exam
- Cadaveric Ultrasound-Guided Musculoskeletal Intervention Course
- Ultrasound-Assisted Botulinum Toxin Injection for Neuromuscular Disorders
- Live Advanced Laparoscopic Colorectal Course

Forthcoming key events:

- **International Medical Summer School**
Manchester, 1st - 5th August 2016
- **International Academic and Research Conference**
Manchester, 6th August 2016
- **World University Anatomy Challenge**
Manchester, 5th August 2016

Online Revision Resources

DoctorExams consists of 1000s of questions with detailed explanations in MCQ, EMQ, SBA and SAQ formats. Questions are written by the Doctors Academy group of experienced clinicians and clinical academics, with mock exams and feedback on performance included to aid a candidate's focused revision of topics. Based on past exams, these questions are carefully crafted to suit the requirements of undergraduate students & postgraduate trainees undertaking relevant speciality exams.
