

**Advanced Catheterisation Course
for Urological Trainees**

Feedback - April 2017

Advanced Catheterisation Course for Urological Trainees

This one-day course, which was led by Consultants, intended to teach urology trainees to understand the essential aspects and challenges encountered during difficult catheterisations. Under direct supervision, the participants were taught how to use the different catheters whilst implementing a safe algorithmic approach. The day was interspersed with pertinent lectures and hands-on workshops.

Aims:

- o To teach participants about the principles of catheterisation and allow them to practice how to insert difficult catheters.
- o To ensure that the participants understand the common pitfalls and complications during catheterisations and how to manage them.
- o To increase awareness about the current guidelines and legal aspects surrounding catheterisations.
- o To help the participants competently perform suprapubic catheterisation using various types of catheters, to make them aware of common pitfalls, and to educate them regarding the current status of this type of catheterisation.
- o To give delegates a safer algorithmic approach to failed catheterisation.

Course Information

Course date:	22nd April 2017
Venue:	Education Centre, Walsall Manor Hospital, Midlands, England
Attendance:	6 Delegates
Aimed at:	General surgical trainees with an interest in urology
Course fee:	£85.00

Learning Objectives:

- o To ensure that the participants know how to manage common pitfalls and complications during catheterisations.
- o To be able to describe different catheter materials, types, sizes, and the indications and contraindications in performing a 'straightforward' catheterisation.
- o To know about the principles behind SPC catheterisation, understand the indications/contraindications surrounding SPC insertion, and how to confidently perform the procedure.
- o To be aware of other, more unusual techniques in performing difficult catheterisations.
- o To give delegates a safer algorithmic approach to failed catheterisation and how to deal with abnormal urethral anatomy.
- o To increase awareness of the current guidelines and legal aspects surrounding catheters.

Course Programme

0830 - 0845 Registration

0845 - 0900 Introduction

0900 - 1000 Lecture 1: Straightforward catheterisations

1000 - 1020 Workshop 1: Straightforward catheterisation in males

1020 - 1040 Coffee/Refreshments

1040 - 1100 Workshop 2: Straightforward catheterisation in females

1100 - 1200 Lecture 2: Complicated catheterisation/how to deal with abnormal anatomy

1200 - 1245 Lunch Break

1245 - 1345 Workshop 3: Alternatives for male and female catheterisation

1345 - 1445 Workshop 4: Supra-pubic catheterisation

1445 - 1515 Tea Break

1515 - 1615 Lecture 3: Other advanced catheterisation techniques.

1615 - 1645 General pitfalls, Tips and Tricks, and Summary

Would you recommend this course to a friend?

Do you think that this course provided good value for money?

■ Most certainly ■ Certainly ■ Probably ■ Unlikely ■ Not at all ■ Most certainly ■ Certainly ■ Probably ■ Unlikely ■ Not at all

Individual Comments

Very good course overall. Excellent lectures and workshops on difficult catheterisation.

PB

Peterborough City Hospital, Peterborough

Very good.

AJ

Birmingham Heartlands Hospital, Birmingham

Generally very good course, friendly informed faculty, useful techniques learned.

AH

Salford Royal, Salford

DOCTORS ACADEMY

BETTER EDUCATION. BETTER HEALTH.

Doctors Academy is a UK-based International Non-Profit Organisation comprising of doctors, dentists and scientists that undertakes a diverse range of educational activities globally. The aim of the Academy is to disseminate information and exchange medical knowledge between professionals from diverse backgrounds working in a variety of healthcare settings. This is achieved by the provision of a number of attendance courses, publishing house, online resources and international events/ competitions.

Courses (a selection):

Undergraduate:

- Final Year Medicine and Surgical Revision Courses
- Training the Clinical Anatomy Trainer
- Clinical Anatomy as Applied to Trauma and Emergency Medicine
- Surgical Anatomy of Important Operative Procedures
- Future Surgeons: Key Skills (RCSEd delivered)
- Structured Introduction to Surgical Skills

Postgraduate:

- MRCS Part A
- MRCEM Part A
- MRCS Part B OSCE
- DOHNS: Intensive Revision & OSCE
- Intercollegiate Basic Surgical Skills (RCSEd delivered)
- MRCP PACES Part 2
- FRCS (General Surgery) Exit Exam
- Cadaveric Ultrasound-Guided Musculoskeletal Intervention Course
- Ultrasound-Assisted Botulinum Toxin Injection for Neuromuscular Disorders
- Live Advanced Laparoscopic Colorectal Course

Forthcoming key events:

- **International Medical Summer School**
Manchester, 31st July to 4th August 2017
- **International Academic and Research Conference**
Manchester, 5th August 2017
- **World University Anatomy Challenge**
Manchester, 4th August 2017

Online Revision Resources

DoctorExams consists of 1000s of questions with detailed explanations in MCQ, EMQ, SBA and SAQ formats. Questions are written by the Doctors Academy group of experienced clinicians and clinical academics, with mock exams and feedback on performance included to aid a candidate's focused revision of topics. Based on past exams, these questions are carefully crafted to suit the requirements of undergraduate students & postgraduate trainees undertaking relevant speciality exams.
