## 7<sup>th</sup> FRCS (General Surgery) Exit Exam Preparation Course

This intensive three-day revision course is designed to help candidates prepare for the Intercollegiate FRCS Examination in General Surgery. Delivered by an experienced group of senior consultants, the course used a combination of direct vivas, interactive discussions, and patients with signs and symptoms to provide the candidate with a focused revision of pertinent topics.

We are pleased to inform you that the 4th Christie FRCS Exit Revision Course in General Surgery was a great success and provided a positive experience for candidates, patients, teaching faculty and the organisers. Through the three days all sub-specialities in General Surgery were covered. In addition to providing key knowledge the unique feature of this course, our one-to-one vivas like in the exam, really put delegate on the spot and tested their knowledge and skills to prepare them for the exam.

We would like to thank all those that taught on the course from Manchester and beyond to provide delegates with inestimable tips and suggestions. A particular mention must go to our esteemed tutor Mr Pradip Datta that conducted most of the interactive teaching. This course follows in the footsteps of his highly acclaimed Caithness FRCS course in Wick, Scotland, that he conducted for over 20 years.

All candidates felt the course was a resounding success with very useful information and tips provided. This is demonstrated by the feedback presented in this document and the continued success of the course.
