Thank you

Dear Colleague,

We are pleased to inform you that the 2nd Christie FRCS Exit Exam Course in General Surgery was a great success and provided a positive experience for candidates, patients, teaching faculty and the organisers. It was conducted over three days, covering all sub-specialities in general surgery. In addition to providing core knowledge, the unique feature of this course was the opportunity for candidates to practice answering viva questions in a one-to-one fashion, as in the exam, by putting them in the spot!

Most of the interactive teaching was done by Mr. Pradip Datta who has conducted the highly acclaimed Caithness FRCS course in Wick, Scotland for over 20 years. In addition, a number of Consultants from various hospitals in Greater Manchester and beyond actively contributed and taught in the course.

A total of 14 candidates attended the course. At the end of the course, all candidates felt that the course was very useful and opined that it provided them with a clear structure on how to prepare for their exam. A detailed feedback from the candidates can be found in the subsequent pages.

We are very grateful to all the faculty who enthusiastically taught in the course and provided the candidates with inestimable tips and suggestions. We would like to thank The Christie School of Oncology and The Christie who supported the course by providing the facility and administrative assistance. We are also grateful to The Doctors Academy Group for their help in organising, facilitating and marketing the course. Last but not the least, we extend our sincere appreciation to the patients who gave up their time to help the candidates gain valuable clinical experience and enable them pass the exam so that they can progress to become consultants in the future.

We look forward to welcoming you to our next course from the 13th-15th December 2013. Thank you once again.

Course Organisers

Postgraduate Surgical Courses

(On behalf of Christie Hospital and Doctors Academy)

Course Programme

Day 1

- 08.30 Coffee & registration

Consultant Colorectal Surgeon
The Christie Hospital, Manchester

FEEDBACK

Comments from Individual Candidates

Emphasis in general surgery and emergency, which is good. Lots of opportunity to be grilled over the weekend! Three days was a good length; didn't need to take much S/L or A/L. The overall organisation, structure and content of the course was excellent.

- Ms Kat McEvoy, SpR,
West Midlands Deanery

The entire course was based on 'tips and tricks' to pass the exam. The content was delivered in a way for us to have 'take home' messages for every section - very useful for exam preparation.

- Mr Ramana Kallam,
SpR, Yorkshire Deanery

Academic and clinical viva were the best part of the course. The overall organization of the event was excellent. The speakers were effective and I would strongly recommend this course to others.

- Ms. Rachael Johnson, SpR,
Norfolk and Norwich University Hospital

Clinical and Academic sections were very good. Practice of discussion and presentation technique was the best part of the course. The structure and content of the course was excellent.

- Mr Chris Houlden,
Registrar, West Wales General Hospital

Excellent course for revision. The structure and the content of the course, and the overall organization of the event were excellent. Would certainly recommend this course to others.

- Mr Nasir Khan,
Registrar, United Lincolnshire Hospitals
NHS Trust

I enjoyed the Interactive nature of the course and the clinical examination. Very enjoyable & has taken a lot of the fear away & helped me think how best to structure the next phase of my revision.

- Ms Lisa Caldon,
SpR, University of Sheffield

General comments:

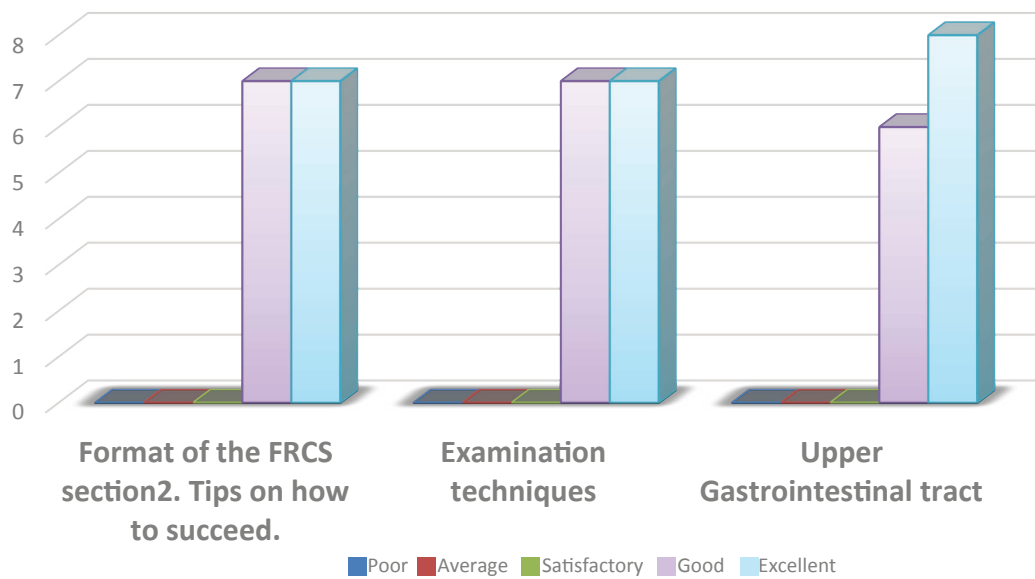

- Clinical examination practice with real patients - excellent session. Good overview of theory and practical. The overall organisation of the event was excellent.
- All the lectures by Mr Datta were very good. The format of the course is very helpful. Course material was very useful.
- The course covered the entire syllabus. The clinical examinations were excellent. Mr Datta is very academic with very good knowledge! Excellent overall.
