

**Dubai UAE: MRCS Part A  
International Course**

**Feedback - February 2014**

## Dubai UAE: MRCS Part A International Course

Basic science subjects such as anatomy, physiology, pathology and microbiology are the principal components for developing a strong foundation for surgical training and understanding of its clinically applied aspects such as surgical anatomy and critical care physiology. All postgraduate surgical exams throughout the world incorporate basic sciences in their syllabus and it is therefore essential to develop a sound grasp of these subjects to be successful in such exams.

This two-day course by Doctors Academy will provide the attendee with an overview of basic physiological principles, consolidate the candidate's core and applied surgical knowledge in anatomy and relevant pathology, and provide a focused revision of pertinent topics as tested in the exam.

It is suitable for candidates appearing for the UK Intercollegiate MRCS Exams (Part A and Part B OSCE) Master of Surgery exams, Arab and American Board Exams.

Candidates attending this course will receive full access to MRCS Part A online educational resources from [www.doctorexams.co.uk](http://www.doctorexams.co.uk) for a 4 month period. This resource contains 100s of SBA and EMQ questions for practice. In addition, they will also receive full access to all presentations via a secure, online link. All these benefits and privileges are included within the course fee.

### Course Information

|                     |  |
|---------------------|--|
| <b>Course date:</b> | <b>26<sup>th</sup> and 27<sup>th</sup> February 2014</b>   |
| <b>Venue:</b>       | <b>Dhow Palace Hotel<br/>Dubai</b>                         |

## Online Revision Resources

DoctorExams consists of 1000s of questions with detailed explanations in MCQ, EMQ, SBA and SAQ formats. Questions are written by the Doctors Academy group of experienced clinicians and clinical academics, with mock exams and feedback on performance included to aid a candidate's focused revision of topics. Based on past exams, these questions are carefully crafted to suit the requirements of undergraduate students & postgraduate trainees undertaking relevant speciality exams.
