

A photograph of three medical students in blue scrubs examining a young child with a stethoscope. The students are smiling and looking at the child. The child is wearing a white shirt and blue jeans. A red semi-transparent box is overlaid on the image, containing the text '3rd National Undergraduate Paediatric Conference'.

3rd National Undergraduate Paediatric Conference

Feedback - November 2016

3rd National Undergraduate Paediatric Conference

Following the success of its last national conference in March 2016, Glasgow University Paediatrics Society was pleased to announce its 3rd National Undergraduate Paediatrics Conference. This was held on 19th November 2016 at the Sir Charles Wilson Lecture Theatre, University of Glasgow.

This year the conference focused on a range of paediatric specialities, offering students a diverse and varied view of paediatrics. There were also a number of talks on 'Current Issues in Paediatrics'. The day took the form of a series of lectures from leading paediatric specialists and an afternoon of workshop sessions, including practical skills sessions and a paediatric careers and CV workshop.

With paediatric specialist training posts commonly over-subscribed, evidence of a commitment to paediatric medicine from an early career stage is becoming more important. This conference provided the perfect opportunity to gain exposure to paediatrics and to present research at a national level. In addition, there were a number of poster presentations to showcase medical student research in the field of paediatrics.

The conference was open to all medical students across the UK, with the overall aim to provide an insight into the field of Paediatrics.

Course Information

- Course date:** 19th November 2016
- Venue:** Sir Charles Wilson Lecture Theatre University of Glasgow
- Attendance:** 81 Delegates
- Aimed at:** Medical Students
- Course fee:** £15.00

Run by the Glasgow University Paediatric Society:

Course Programme

0830 - 0900 REGISTRATION

0900 - 0915 Introduction & Welcome
Professor Faisal Ahmed

Overall Teaching Feedback

How do you rate the relevance of the event to your future career?

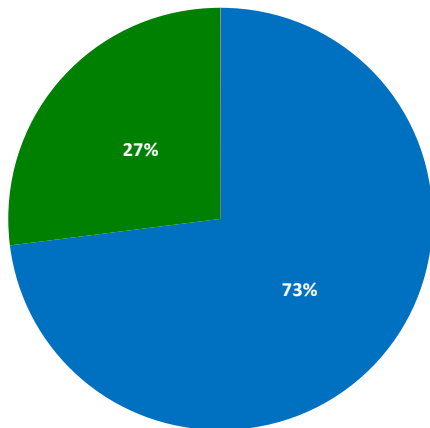

■ Excellent ■ Good ■ Neutral ■ Fair ■ Poor

Do you feel that the event provided you with an 'option' (or 'may consider') becoming a Paediatrician in the future?

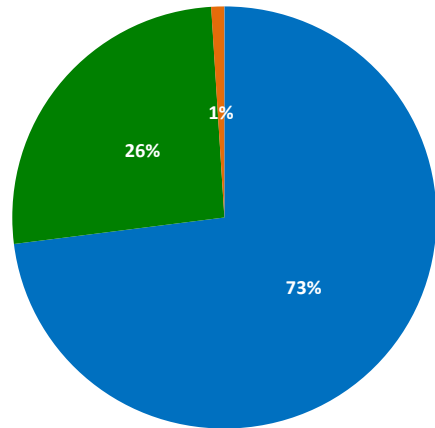

■ Most certainly ■ Certainly ■ Neutral ■ Probably ■ No way

How would you rate the general friendliness of the faculty and organisers?

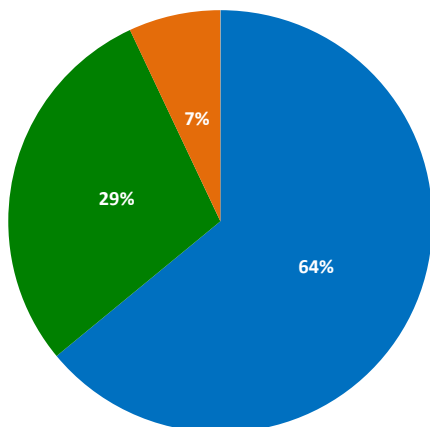

■ Very friendly ■ Friendly ■ Indifferent ■ Unapproachable

Would you recommend this event to a friend?

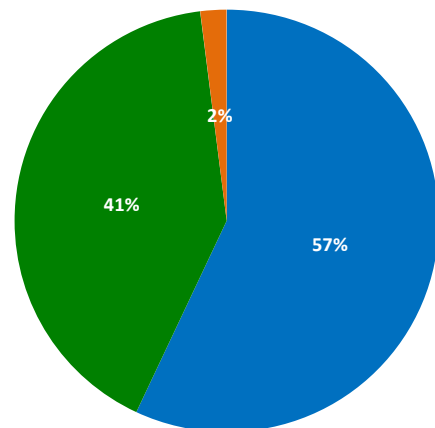

■ Most certainly ■ Most probably ■ Neutral ■ May be ■ No way

Would you consider attending a future Doctors Academy event

■ Most certainly ■ Most probably ■ Neutral ■ May be ■ No way

Please tell us your overall impression about the organisation presentation and relevance of the event.

■ Excellent ■ Very good ■ Neutral ■ Fair ■ Poor

Individual Comments

Whole programme was well run without any hitches and chosen topics were relevant to what is of interest now.

SS
University of Glasgow

Really enjoyed the event. Very interesting speakers and a nice variety of topics covered.

CT
University of Glasgow

Very informative and interesting day. Very well organised timetable.

EA
University of Glasgow

Well organised, ran slickly and to time. Workshops were surprisingly good and invaluable help.

MK
University of Glasgow

Was organised well and conference went by very smoothly.

AS
University of Glasgow

I really enjoyed the whole day.

TM
University of Glasgow

Very well organised day with friendly speakers.

AY
University of Liverpool

Fantastically organised, brilliant presentations and workshops. I particularly enjoyed the fact that there were presentations/workshops on psycho-social aspects and not just medical theory. Really really enjoyed it!

MG
University of Glasgow

Overall it was a good conference, workshops were the best!

FM
University of Glasgow

Individual Comments

I thought this was really well organised - all of the lectures were really interesting, and the workshops were especially useful in planning a career in paediatrics!

ML
University of Glasgow

Very relevant and well organised event.

CO
University of Glasgow

Fantastic event with lots of useful and relevant information. Well run and well organised.

RL
University of Glasgow

Very informative and well laid out.

MG
University of Glasgow

This event was an excellent opportunity to see the different careers available within the field of paediatrics.

JL
University of Glasgow

Very beneficial, I am very keen to specialise in paediatrics and the CV building was extremely beneficial and not something you commonly have the opportunity to do. Both the gender identity and the asylum seeker lectures were very insightful and relevant to current society. The day ran smoothly and the time was filled well.

FE
University of Glasgow

The event was organised very well and ran to time. The topics which were covered were topical and also very informative and often useful for undergraduate medicine.

CM
University of Glasgow

It was a great insight for us. Most of the parts were easy to understand, even for us first year medical students. The workshops were interesting too, and I would definitely consider specialising in paediatrics.

YS
University of Glasgow

Individual Comments

Really interesting and useful day, and very well run. Thanks!

AC
University of Glasgow

Organisation was very good, no issue. Presentation were of interest. Overall good relevance, workshops were particularly good at aiming the learning points at students who are thinking about a career in paediatrics.

University of Glasgow

DOCTORS ACADEMY

BETTER EDUCATION. BETTER HEALTH.

Doctors Academy is a UK-based International Non-Profit Organisation comprising of doctors, dentists and scientists that undertakes a diverse range of educational activities globally. The aim of the Academy is to disseminate information and exchange medical knowledge between professionals from diverse backgrounds working in a variety of healthcare settings. This is achieved by the provision of a number of attendance courses, publishing house, online resources and international events/ competitions.

Courses (a selection):

Undergraduate:

- Final Year Medicine and Surgical Revision Courses
- Training the Clinical Anatomy Trainer
- Clinical Anatomy as Applied to Trauma and Emergency Medicine
- Surgical Anatomy of Important Operative Procedures
- Future Surgeons: Key Skills (RCSEd delivered)
- Structured Introduction to Surgical Skills

Postgraduate:

- MRCS Part A
- MRCEM Part A
- MRCS Part B OSCE
- DOHNS: Intensive Revision & OSCE
- Intercollegiate Basic Surgical Skills (RCSEd delivered)
- MRCP PACES Part 2
- FRCS (General Surgery) Exit Exam
- Cadaveric Ultrasound-Guided Musculoskeletal Intervention Course
- Ultrasound-Assisted Botulinum Toxin Injection for Neuromuscular Disorders
- Live Advanced Laparoscopic Colorectal Course

Forthcoming key events:

- **International Medical Summer School**
Manchester, 31st July to 4th August 2017
- **International Academic and Research Conference**
Manchester, 5th August 2017
- **World University Anatomy Challenge**
Manchester, 4th August 2017

Online Revision Resources

DoctorExams consists of 1000s of questions with detailed explanations in MCQ, EMQ, SBA and SAQ formats. Questions are written by the Doctors Academy group of experienced clinicians and clinical academics, with mock exams and feedback on performance included to aid a candidate's focused revision of topics. Based on past exams, these questions are carefully crafted to suit the requirements of undergraduate students & postgraduate trainees undertaking relevant speciality exams.
