

**MUMPS National Student
Paediatrics Conference**

Feedback - October 2016

MUMPS National Student Paediatrics Conference

Following the success of the inaugural conference which took place in 2015, the Manchester University Medics Paediatrics Society was delighted to announce its second National Student Paediatrics Conference. The Conference, which explored various elements of the world of paediatrics, also welcomed the keynote speaker, Dr Helen Spencer, the current Clinical Lead for the Lung Transplant Service at Great Ormond Street Hospital (GOSH) in London. Her talk covered certain issues encountered while working in the field of lung transplantation, as well as discussed her career path and life at GOSH.

Workshops were held throughout the day in order to offer delegates the opportunity to gain in-depth knowledge into child health issues on a global scale. These workshops also provided delegates with an insight into the most appropriate way to tailor their career in paediatrics given their interests and ambitions.

The Conference included an interactive workshop with patients and parents who have first-hand experience of paediatric care in the NHS. This gave delegates the opportunity to acknowledge an alternative viewpoint of the field of paediatrics and to learn how to improve their own practice.

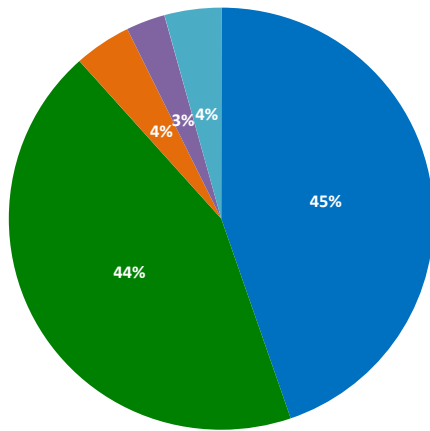

Course Information

Course date:	8th October 2016
Venue:	University of Manchester Innovation Centre (UMIC) 48 Grafton Street, Manchester
Attendance:	61 Delegates
Aimed at:	Medical Students Foundation Year Doctors
Faculty:	Surgeons
Course fee:	£18.00

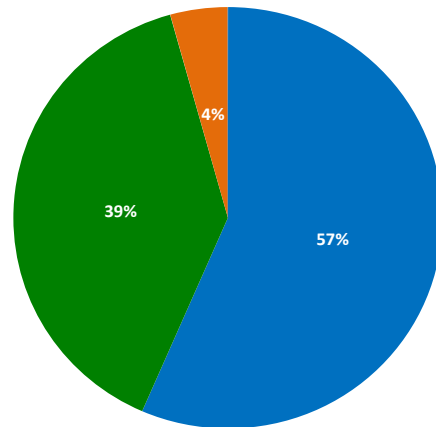

Overall Teaching Feedback

How was the overall content of the event?

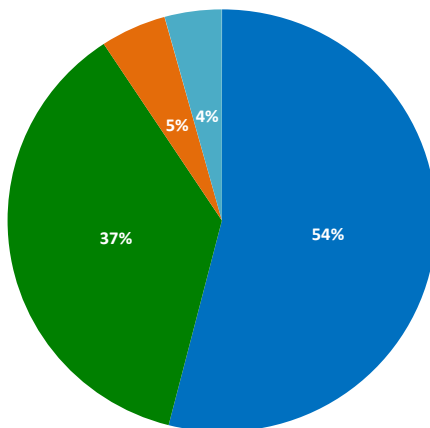

■ Excellent ■ Very Good ■ Good ■ Fair ■ Poor

How was the clarity of presentations?

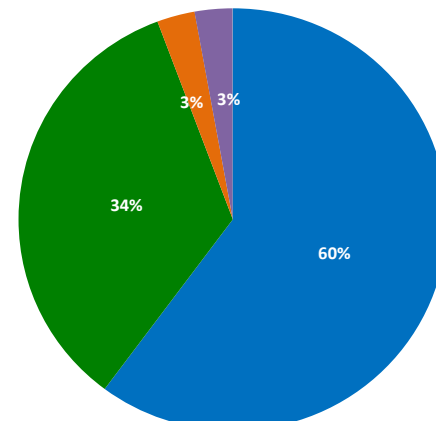

■ Excellent ■ Very Good ■ Good ■ Fair ■ Poor

How would you rate the general standard and knowledge of the speakers?

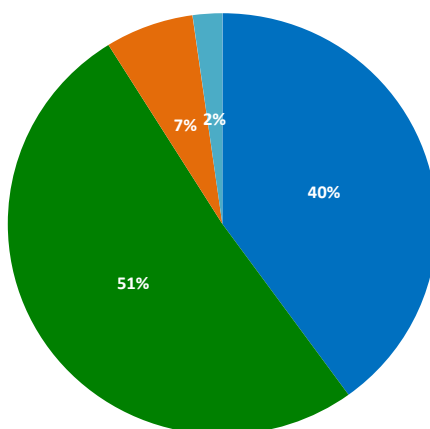

■ Excellent ■ Very Good ■ Good ■ Fair ■ Poor

Do you feel that you benefited from the information/knowledge you gained by attending the day?

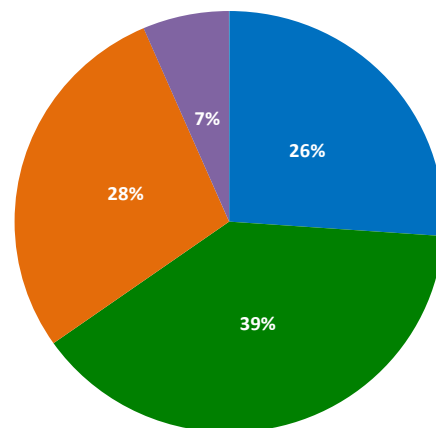

■ Most Certainly ■ Certainly ■ Probably ■ A Small Amount ■ Not at all

Dr Ferguson, Community Paediatrics

Individual Comments

It gave me a good insight into the variety of careers within paediatrics and information about how to get into paediatrics

HK

The talks were interesting and I found the overall event very enjoyable.

RM

Really well organised and the talks were all really interesting and useful when considering a career in paed. Thanks.

OH

Wonderfully organised, thoroughly enjoyable, answered many of my questions about paediatrics, and broadened my interests about careers within the specialty

FK

The event was very useful in informing me about paediatrics and the career options available. I enjoyed the lectures and workshops.

AA

Very good.

JR

Fantastic event, well organised and interesting. I especially enjoyed learning about the lung transplants being done at GOSH as this is something I knew very little about beforehand.

CU

It was very interesting to gain an insight into the world of Paediatrics as I am a Y1 medic.

RM

I was very impressed with the organisation and the event overall.

TS

I found the day really useful and it has made me want to do paediatrics even more.

CC

Very well organised, would love to attend again next year!

AP

Individual Comments

Good variety of specialties. The conference was well organised.

AG

Very interesting.

SL

Very good.

CB

Very well organised. The day ran smoothly. The talks were varied and interesting and relevant to my learning.

MP

Well-organised, kept to time.

SH

All in all I was very impressed, it was very well run and of a high quality.

AD

I thought there was an excellent variety of speakers showing many aspects of paediatrics. Also I found the discussions about the practicalities of the training pathway very useful.

ZB

The event was very well organised and I found all the topics covered interesting and relevant. Participating was really useful for me personally considering I am currently doing a PhD and would like to pursue a career in clinical paediatrics on completion of this.

VS

The organisation of the conference was very good, all the presentations were useful and gave a wide range of background information around Paediatrics and relevant career options.

MN

Well organised useful for future knowledge of career in Paeds

SM

Individual Comments

The event was well organised and all the workshops began on time which I would like to congratulate the committee for such a big and successful event. All the workshops were very interesting and educational.

WC

Great.

NC

Very well organised with a varied range of topics, with good interactive opportunities.

BW

Extremely well organized

CK

Good variety of speakers.

OM

It was a really good mix of the career path and different worlds of work in paed.

HM

Very well organised.

KP

The MUMPs team were very good - looked professional on registration and getting the sessions moving along. I enjoyed the research presentations from students.

AC

Very good.

ST

Great conference to attend as an introduction to paediatrics. For someone like myself who has not yet had a paediatrics placement and knows very little about the specialty this was a great source of knowledge and information. Student presentations were also very impressive.

AL

Very good

LH

Individual Comments

Great organisation and presentation. The event provided a great deal of insight into the vast specialty of paediatrics.

SU

Was really good, as I am interested in a career in paediatrics it was useful hearing about different avenues that can be explored and gaining a wider appreciation of the area.

JW

Well organised. Gave me an insight into areas of paediatrics I hadn't yet considered (e.g. community paed). Patient workshops were really good.

ZA

I really enjoyed the day. it was organised well and the talks were very informative. I especially liked being able to have mini discussions in small groups with different paediatricians. This gave me the opportunity to ask more questions about the pathway I would follow if I choose paed. I felt like the presentations were basic enough for first years but also informative enough for older students. Even if I didn't quite understand everything, I found it interesting to hear about. Thank you

JY

DOCTORS ACADEMY

BETTER EDUCATION. BETTER HEALTH.

Doctors Academy is an international non-profit organisation which comprises of doctors, dentists and scientists. The aim of the Academy is to disseminate information and facilitate the exchange of medical knowledge between professionals from diverse backgrounds who work in various healthcare settings. In order to achieve this, a diverse range of educational activities are undertaken globally which are further complemented by our publishing house, online resources, and international events and competitions.

Courses (a selection):

Undergraduate:

- Final Year Medicine and Surgical Revision Courses
- Training the Clinical Anatomy Trainer
- Clinical Anatomy as Applied to Trauma and Emergency Medicine
- Surgical Anatomy of Important Operative Procedures
- Future Surgeons: Key Skills (RCSEd delivered)
- Structured Introduction to Surgical Skills

Postgraduate:

- MRCS Part A and Part B OSCE
- MRCEM Part A
- DOHNS OSCE
- Intercollegiate Basic Surgical Skills (RCSEd delivered)
- MRCP PACES
- FRCS (General Surgery) Exit Exam
- Cadaveric Ultrasound-Guided Musculoskeletal Intervention Course
- Ultrasound-Assisted Botulinum Toxin Injection for Neuromuscular Disorders
- Live Advanced Laparoscopic Colorectal Course
- Infant Hip Ultrasound Course for Developmental Dysplasia of the Hip

Forthcoming Key Events:

- **International Medical Summer School**
Manchester, 31st July to 4th August 2017
- **International Academic Research Conference**
Manchester, 5th August 2017
- **World University Anatomy Challenge**
Manchester, 4th August 2017

Online Revision Resources

DoctorExams consists of thousands of questions with detailed explanations in MCQ, EMQ, SBA and SAQ formats. The questions have been written by the Doctors Academy group of experienced clinicians and clinical academics, with mock exams and feedback on performance included to aid a candidate's focused revision of the given topics. Based on past exams, these questions have been carefully designed to meet the needs of undergraduate students and postgraduate trainees undertaking relevant speciality exams.
