## III. PROGRAMME AND CONTENTS

This two-day intensive course will involve a series of short interactive sessions and focused discussion highlighting the 'must know' areas. Candidates will be taken through the 'high yield' core topics in Applied Basic Sciences, and Clinical Knowledge and its application. The course will also provide practice of clinical examination and communication skills, and commonly tested procedural skills.

Topics Covered:

- Applied surgical anatomy
- General physiological principles
- General and system specific pathology
- Principles of surgery in general
- Overview of clinical examination and communication skills
- Practice of procedural skills

#### **IV. WHAT TO PREPARE**

The course will be intense and exhausting. Hence, please read as much as possible beforehand so that you will gain the maximum benefit from the course. Prior knowledge will also help you to focus on important pieces of information during the lectures. Please follow this link to access the pre-course presentations:
