

Core Surgical Interview Preparation Course

Feedback - December 2017

Core Surgical Interview Preparation Course

This one-day, intensive course was aimed at Foundation Year and Non-Training Grade Doctors (at Foundation Year/Core Training level) who will apply to the Core Surgical Training Programme Interviews. It was intended to guide attendees through the interview process, as well as provide invaluable knowledge and tips. The high faculty-to-candidate ratio and the focus on personalised feedback allowed the course to be of great benefit to the attendees.

The day consisted of a series of lectures, mock interviews, and workshops. The workshops offered attendees an insight into presenting a strong portfolio and enhancing management skills. There were also a number of clinical stations and a feedback session.

This course was heavily subsidised and, as such, candidates were able to attend at no cost. Feedback from previous attendees suggests that this course is highly beneficial, with the majority of candidates attaining their first Priority Job following interview.
