

National Undergraduate Anaesthetics and Critical Care Conference

Feedback - May 2022

National Undergraduate Anaesthetics and Critical Care Conference

This one-day conference was aimed at undergraduate medical students with an interest in the specialties of Anaesthetics and Critical Care. It provided attendees with an insight into these fields through a number of talks delivered by registrars and consultants.

Undergraduate students were encouraged to submit abstracts for poster presentation, with prizes awarded to the best projects.

Aims and Objectives

- o To give students an opportunity to explore their interests of Anaesthetics and Critical Care in unprecedented times on a virtual platform
- o To provide students with an opportunity to present research at a virtual poster presentation
- o To allow students to network with those working in Anaesthetics and Critical Care

Individual Comments

Fantastic quality of speakers. Appropriate level of content for undergraduates with an interest in critical care and/or anaesthetics in the future.

EB

Some content was above my level but I enjoyed the conference and it peaked interest in the topics covered.

EW
University of Glasgow, Glasgow, UK

The conference was well organised and executed to a high standard. I did feel like some of the content of the conference was slightly above my academic level but will hopefully be useful for future years.

CG
University of Glasgow, Glasgow, UK

I learned so much from the posters presentation: interesting subjects explained thoroughly yet simply.

MT
University of Glasgow, Glasgow, UK

Was great.

NS
University of Cambridge, Cambridge, UK

I really enjoyed the conference. The talks were very informative and the chance to present my poster was very useful. I also enjoyed hearing from other students about the research they had conducted.

LH
University of Glasgow, Glasgow, UK

Well organised conference and it is easily accessed via Zoom. The contents of the lecture were highly insightful. I was particularly interested in the critical illness recovery and its association with anxiety.

WP
University of Glasgow, Glasgow, UK

Good teaching, everyone seemed lovely, topics all relevant to current problems in anaesthetic practice.

TC
University of Glasgow, Glasgow, UK

Really interesting, good length, nice to have the questions following the posters.

AW
University of Glasgow, Glasgow, UK

Very helpful to gain more insight into a speciality that isn't covered much in early medical school. Good to see what other students are doing in poster presentations.
