Plastic Surgery as a Career: Moulding Lives - Restoring Form and Function

Plastic surgery is one of the most elegant, fascinating and rewarding disciplines amongst all surgical specialties. Taking its origin from the Greek word 'plastikos' meaning 'to mould', it is an ancient discipline of surgery, with a captivating history which dates back to 800 years BC. This specialty is one of the few that concerns all anatomical regions of the human body and patients of every age.

This talk by Mr Jose, a highly regarded Consultant Plastic and Hand Surgeon at the reputed Queen Elizabeth Hospital and The Royal Orthopaedic Hospital in Birmingham, provided an overview of the specialty, the concept of reconstructive ladder, principles of skin grafts and flaps, and case-studies illustrating the essential principles of plastic surgery. It also covered a brief history of the specialty, as well as highlighting the current developments and future advances in the field. Career progression in the specialty of plastic surgery was also be discussed.

Individual Comments

It was a great seminar. Thank you.

PE

Stavropol State Medical University, Stavropol, Russian Federation

I liked the session mainly because it provided information with a combination of pictures and talk.

SS

Lady Hardinge Medical College, New Delhi, India

Really excellent talk and loved the history aspect as well. Beautifully motivating and although I wasn't looking at Plastic Surgery as an option for the future, it may well be one now!

RM

R?ga Stradi?E! University Faculty of Medicine, Riga, Latvia

I very much enjoyed this, thank you!
